David and Karen Gamow, foremost among America's leading stress management trainers, have developed an approach, detailed in this book, that is clinically proven to work. That is to say, through a series of simple exercises that can be done in minutes, an actual change in one's neural and physiological function occurs. Not only does this reduce the effects of chronic pain and stress, it also leads to greater personal calmness, clarity and overall productivity. This book is highly recommended. *See talk Jan 31*

**David R. Hawkins, MD, PhD**  
**DISCOVERY OF THE PRESENCE OF GOD**  
*Devotional Nonduality*  
Veritas Publishing, \$17.95

A world leader in the field of consciousness research, David Hawkins here presents the inner route from self to Self. In this extraordinary book, the sixth in a series, he finalizes and elucidates the true nature of Enlightenment. It is clear, as he reveals, that to "know" is to "be," not merely to "know about." Devoid of religious doctrine, this book provides what Hawkins has had in his sights all along: the core characteristics of Spiritual Truth. For the serious devotee, it can also be read as a manual for transcending the ego on the path to the Divine.

**Carol Schaefer**  
**GRANDMOTHERS COUNSEL THE WORLD**  
Trumpeter Books, \$18.95

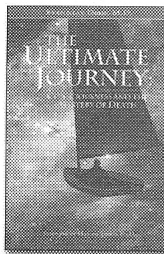

In various Native American societies, tribal leaders would consult a council of wise women elders before making any decision that would impact the whole community. What if we did the same with problems confronting our global community today? This book presents the insights and guidance of thirteen indigenous grandmothers from five continents, living legends among their own peoples. Based on their ancestral ways of prayer, peacemaking and healing, they address such vital issues as violence, war, poverty, family and health.

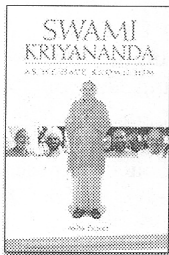

Yogananda wrote a number of divinely inspired articles and lessons that have long been out of print. In this first volume of *The Wisdom of Yogananda*, drawn from these sources, you will learn that happiness is easier to find than your conditioning and experience have led you to believe. Happiness is the foundation for success in every part of life, and here Yogananda brings into brilliant focus a dynamic vision that makes it lastingly accessible to us all.

**Stanislav Grof**  
**THE ULTIMATE JOURNEY**  
*Consciousness and the Mystery of Death*  
MAPS, \$19.95

This masterful book is a distillation of ancient wisdom and modern science that helps us to understand the experience of death, develop ways to make dying easier, and integrate it as a meaningful part of life. Dr. Stan Grof is a co-founder of transpersonal psychology, and is world-renowned for his decades of pioneering research into non-ordinary realities. Here he asserts convincingly that those who come to terms with death experience a radical inner transformation that might be humanity's only real hope for survival

**Asha Prayer**  
**SWAMI KRIYANANDA**  
*As We Have Known Him*  
Crystal Clarity Publishers, \$16.95

More than a treasure of personal stories, and more than a brilliant "biography of consciousness," this book is a fully rendered spiritual teaching like no other. Swami Kriyananda, the foremost living disciple of Paramhansa Yogananda, has been prodigiously creative in his service to his Guru and humanity: as the author of over 80 books and 400 pieces of music; as the founder of schools and the world's most successful spiritual communities; and as a great lion of God. Asha Prayer, a gifted storyteller, brings to these pages her close friendship of 37 years with this remarkable man. For truth-seekers of all paths, this book is a gem. *See event Feb 10*
